**Time: 10:00 a.m. - 11:00 a.m.**

This series offers structured, ongoing support for participants that have attended the Behavioral Health Skills for Everyday Helpers webinars. Over a six month period, participants will engage in monthly virtual case consultation and technical assistance sessions designed to reinforce and apply the skills acquired during training. These sessions will provide an individualized approach to skill development, allowing participants to discuss real-world cases, receive expert guidance, and address challenges encountered in practice. Come and increase your confidence as you integrate behavioral health strategies into your daily work!

**Cost: Free for non-licensed professionals in a helping role** including Peer Support Specialists, Community Health Workers, School Personnel, Public Health Professionals, Care Coordinators, Case Managers, and DSS Personnel who have completed prior webinars in the Behavioral Health Skills for Everyday Helpers Webinar Series.
