TRAIN
RETAIN

In today's evolving world of cardiovascular care, many technological advancements and therapies exist to improve the cardiovascular patient's quality of life. It is a formidable task staying on top of these advancements. Plus, knowing what resources exist and steps to take to direct your patient's care to the best hands available may be overwhelming. This Cardiovascular Care Symposium will include a review of the latest cardiovascular care guidelines and features experts in Advanced Heart Failure, Complex Arrhythmia and Structural Heart to give latest updates in therapies, procedures and resources available.

Target Audience

Cardiology, Internal Medicine, Urgent Care, Primary Care, Family Practice and Hospital Medicine Physicians; Physician Assistants and Nurse Practitioners
