

Multidisciplinary Approaches to Lung Cancer Screening and Treatment

TUESDAY, AUGUST 15, 2023

North Ridge Country Club
6612 Falls of Neuse Road, Raleigh NC 27615

REGISTRATION 5:30 pm | PROGRAM 6:00 – 8:30 pm

This conference is designed to educate the primary care community on lung cancer preventative and supportive treatments with emphasis on lung cancer screening as a safe and effective tool for early diagnosis and better patient survival outcomes. By attending this educational offering, healthcare providers will gain knowledge in the most current guidelines outlining the high-risk patient for screening; understand the specialist referral decision making process upon nodule findings; and have a better understanding of a multidisciplinary approach to clinical care.

TARGET AUDIENCE

Physicians, Advanced Practice Providers, Nurses, Case Managers,
Nurse Navigators and other Healthcare Professionals

OBJECTIVES

At the conclusion of this competency-based activity, the participant should be able to:

- Recognize new guidelines to identify high risk patient eligibility for lung cancer screening.
- Discuss shared decision making with eligible patient for lung cancer screening to include risks of screening and the impact of benefits improving access to care.
- Describe the role of diagnostics in response to nodule findings with the benefits of timely care coordination.
- Recognize the latest advances in diagnosis and treatment decisions to optimize lung cancer treatment strategies and outcomes.
