Adolescent Health and NC Law

The purpose of this webinar is to provide current information about North Carolina Public Health Law as it pertains to issues such as consent and confidentiality for adolescent health care. Topics include the types of health services for which a minor can consent, the confidentiality of a minor’s health information, mandatory reporting requirements for healthcare professionals to include legal responsibilities for reporting suspected adolescent abuse and more.

Featured Speaker: Kirsten Leloudis, JD, MPH

Objectives

At the conclusion of this educational activity, should be able to:

- Explain current NC public health law as it pertains to adolescents and their ability to consent for healthcare.
- Identify the general rules to consent in urgent/emergency situations, non-parent authority to consent, and parental consent.
- Discuss current NC public health law as it relates to adolescents and confidentiality of their health-related information.
- Describe health care professionals’ legal responsibilities for reporting potential adolescent abuse and neglect.
