

# Wake AHEC Library Services

The staff of Wake AHEC Library Services wants to help all healthcare professionals make better use of information.

We do that in 3 ways:

- We provide direct services by
  - Searching the literature for journal articles or answers to reference questions
  - Finding full-text articles or books
- We train users by
  - Customizing training for the individual or groups
  - Demonstrating available resources
  - Improving search skills
- We provide the AHEC Digital Library by
  - Facilitating access to trusted library resources in a free version available to everyone
  - Selecting and purchasing licensed resources available to NC hospitals and individual healthcare providers by subscription
  - Administering access and helping users
